| Work Breakdown Structure | |
|---|---|
| **Topic** | **Responsibility** |
| **Canny Operator**<br><br>• Low-pass Gaussian Filter<br>• Derivative filter | **[1]** |
| **Global Edge Computation**<br><br>• Computing Image derivatives in both directions with different gaussian variances | **[2]** |
| **Local Edge Repairs**<br><br>• Computing local repairs over the previously computed edge map | **[1]** |
| **Morphological Processing**<br><br>• Building morphological features. Fill the boundaries and create a binary map. | **[2]** |

**Team:**

[1]. *Veera Raghava Reddy Katamreddy*
[2]. *Noor Afshan Fathima*
